

FarmaSea® Health LLC Files a Lawsuit Against ITV Direct, ITV Global, EVS Group, ITV Ventures and Donald Barrett for Federal Trademark Infringement

FarmaSea® Health LLC, the company dedicated to offering the most powerful blend of edible sea plants on Earth, filed a Federal Lawsuit, Case 0:08-cv-06244-ADM-JSM, against Donald Barrett and his myriad of companies and alias' most of which are now defunct.

Phoenix, AZ ([PRWEB](#)) May 8, 2009 -- FarmaSea® Health LLC, the company dedicated to offering the most powerful blend of edible sea plants on Earth, filed a Federal Lawsuit against Donald Barrett and his myriad of companies and alias' most of which are now defunct. FarmaSea® Health is the exclusive owner of eight USPTO Registered Trademarks related to their brands, including the now discontinued Sea Vegg®, the new and improved Super Sea Veg® and FarmaSea®. The active ingredient in all legitimate FarmaSea® products is the proprietary Pristine Ocean Blend or the FarmaSea® Blend of Sea Plants.

FarmaSea® Health LLC President, Scott Kennedy said, "Our contract with ITV ended over a year ago, and we have not shipped them any of our proprietary raw material in over 18 months, but somehow Mr. Barrett allegedly believes he can print our label without authorization on a product he has manufactured without our raw material or our consent, which we have reason to believe is counterfeit, and continue selling and reselling to the unassuming public."

The lawsuit states that "ITV Group continues to use Kennedy's Name and Mark to promote and sell counterfeit Product to an unknowing public. ITV Group has persisted in its unlawful conduct despite Plaintiff's demands that they immediately discontinue the same. Defendants wrongful use of the Names and Marks without Plaintiff's authorization or consent is a violation of the Lanham Act 15 U.S.C. 1114 and 1125".

FarmaSea® Health, LLC has re-branded and created a new and improved Super Sea Veg®, in late 2008.

FarmaSea® Health, LLC is located in Phoenix, Arizona, where Kennedy personally oversees the sourcing, importing, drying, milling, blending, encapsulation and marketing of Super Sea Veg® and the FarmaSea® Blend of Sea Plants along with scientific advisor and partner, Dr. Stefan Kraan PhD, Marine Botany.

Super Sea Veg® is the only dietary food supplement consisting of a blend of 12 organic edible species of sea plants, selected from over 10,000 and harvested from pristine ocean waters around the world. It changes the blood and the Power is in the Blood!

A portion of all FarmaSea® Health Club purchases goes to The Kennedy-Wallace-Kraan Research Foundation. See <http://www.superseaveg.com/aboutus.cfm> for more details on this nonprofit organization.
